

Amity Cemetery

Warwick, New York

Amity Cemetery is located in the hamlet of Amity, New York at the corner of Amity Road and Newport Bridge Road. This is in the town of Warwick, county of Orange. The cemetery is not associated with a church, although the Amity Presbyterian Church is directly across the street at 118 Newport Bridge Road. The church was founded in 1796. Today, the cemetery is not kept up on a regular basis and may be overgrown and difficult to tour.

The cemetery data is a compilation from a few different sources:

- The initial information was provided in October of 1938 by Mrs. William John Willcox Sr. (Ruth Shaw). She is a great-great-great granddaughter of Governor John Willcox (who was born at Amity NY July 28, 1800).

- A map of the cemetery was made by Mr. H.A. Buse, husband of Francis M. Buse. The map was copied and an addenda was compiled by Mr. Claude Osborne Pembleton in April 1973.

- A book by Carrie Timlow Feagles: "They went to Church in Amity, 1796 - 1896", published in 1949, provided information on a number of the members. Church membership is indicated by an asterisk (*) next to the members name.

- Additional data was provided by Miss Elizabeth Horton in August 1973 in the Notes column.

The map and individual index cards are on file in the Orange County Genealogical Society library. The introductory index card sites the above sources and the possibility of inaccuracies in spelling. It is stated that many names in the book appear to be inaccurate and most were written by verbal impression. In this listing, 'NOM' in the notes column indicates that the name and/or a stone does not appear on the map. This information is also taken from the index cards. In the case of a married woman, all her information is located with her married name. A cross reference from the maiden name (when known) is in the Notes column.

Appendix A is a copy of the cemetery map. Appendix B provides a numeric list of all 'plot' numbers with names as they appear on the map. Appendix C provides an alphabetic list of all names with 'plot' numbers as they appear on the map.

April 30, 1996
