

## HEIDI LANINO BELIZEKIAN *BIRD MINIATURE I*

Movement and life are what inspire my work. I strive to capture the essence of a moment, the essence of an object, the essence of a place, and within that essence define visually the change and transformation that takes place.

My work has been exhibited in the United States and abroad and is represented in numerous private collections. I received my BFA from Pratt Institute. I lived in New York City for 17 years, studied drawing and painting nationally and internationally. After leaving New York City, I relocated to the Hudson Valley where I live with my husband and two sons.
